The DISTILLERY

M&H is Israel's first whisky distillery.

Founded in 2013 by a group of friends: : whisky-loving startup entrepreneurs who decided to make their dream of a world-class Israeli Single Malt come true. To achieve this we do not cut corners or take any shortcuts. We joined forces with the late Dr Jim Swan, a world-renowned master distiller, who also consulted several leading distilleries in the world. He served as our professional consultant and guided us throughout the setup process, formulating the recipe, specifying the equipment and selecting the raw materials. We purchased the most advanced equipment and we consistently purchase the finest raw materials. Our casks are selected after a meticulous screening process and with thought and planning for years ahead. But most importantly, we built a distillery in the heart of Tel Aviv, Israel's cultural and culinary hub, the "non-stop" city on the Mediterranean Sea.

Our commercial Single Malt Whisky will be ready at the end of 2019.

The CLIMATE

High temperatures and humidity characterize the Israeli climate during most of the year. This allows our whisky to mature relatively quickly, so that even when it is 3 or 4 years old, it feels far more mature and complex than its age, surprising the world's biggest experts. In addition, Israel is blessed with four different climate zones, providing us with room to experiment. A fascinating playground is available with a variety of whisky aging possibilities, even outside the distillery's cask room: from mountainous Safed to muggy Beit Shean, from the hills of Jerusalem to the Negev Desert and the Dead Sea.

 300 Days of sunshine

 Temperatures of 16°-40°

 Most of the year 50%-90% humidity

Purchase a PIECE OF HISTORY

Celebrating an important occasion?
Or do you simply want to make a whisky lover's dream come true? We invite you to take part in making history with us in Israel's emerging whisky culture and to be our partners in this special experience and enjoy the initial opportunity to purchase a full-sized cask (200 liters) from M&H Distillery.

We are offering a limited number of first-fill ex-bourbon casks. Each cask will be filled with new-make, sweet single malt, which ultimately serves as the foundation for our final whisky. After filling, the cask will be placed in the cask room at the distillery, where it will be closely supervised for the next three or more years.

As the owners of a cask at the distillery, you will be able to visit whenever you like to see how your cask is doing, to taste and feel how it is developing and, upon request, to receive a sample by mail. After three years, you will need to decide, in consultation with us, whether to bottle the cask or allow it to continue aging. The price will be divided into two payments: first payment of €2,650 will be paid upon signing, second payment (the service price) will be paid at bottling day - €7.2 for each 700ml bottle at 46%abv. For every year after the first three there will be an additional payment of €400 for storage and insurance. It is going to be a wonderful process, filled with excitement and expectation, at the end of which you will have your own personal whisky edition.

* All the prices are before tax.

Below is an estimate of the number of 700ml bottles per year of aging in a 200Liter barrel

Barrel size	200 Liters							
Years of aging	3	4	5	6	7	8	9	10
Estimated number of bottles	270	234	202	175	151	130	113	97

The estimate calculation is for 46% abv.
We estimate a yearly 9% angel share.
